

Most of the trees in this survey come from Queens and Brooklyn

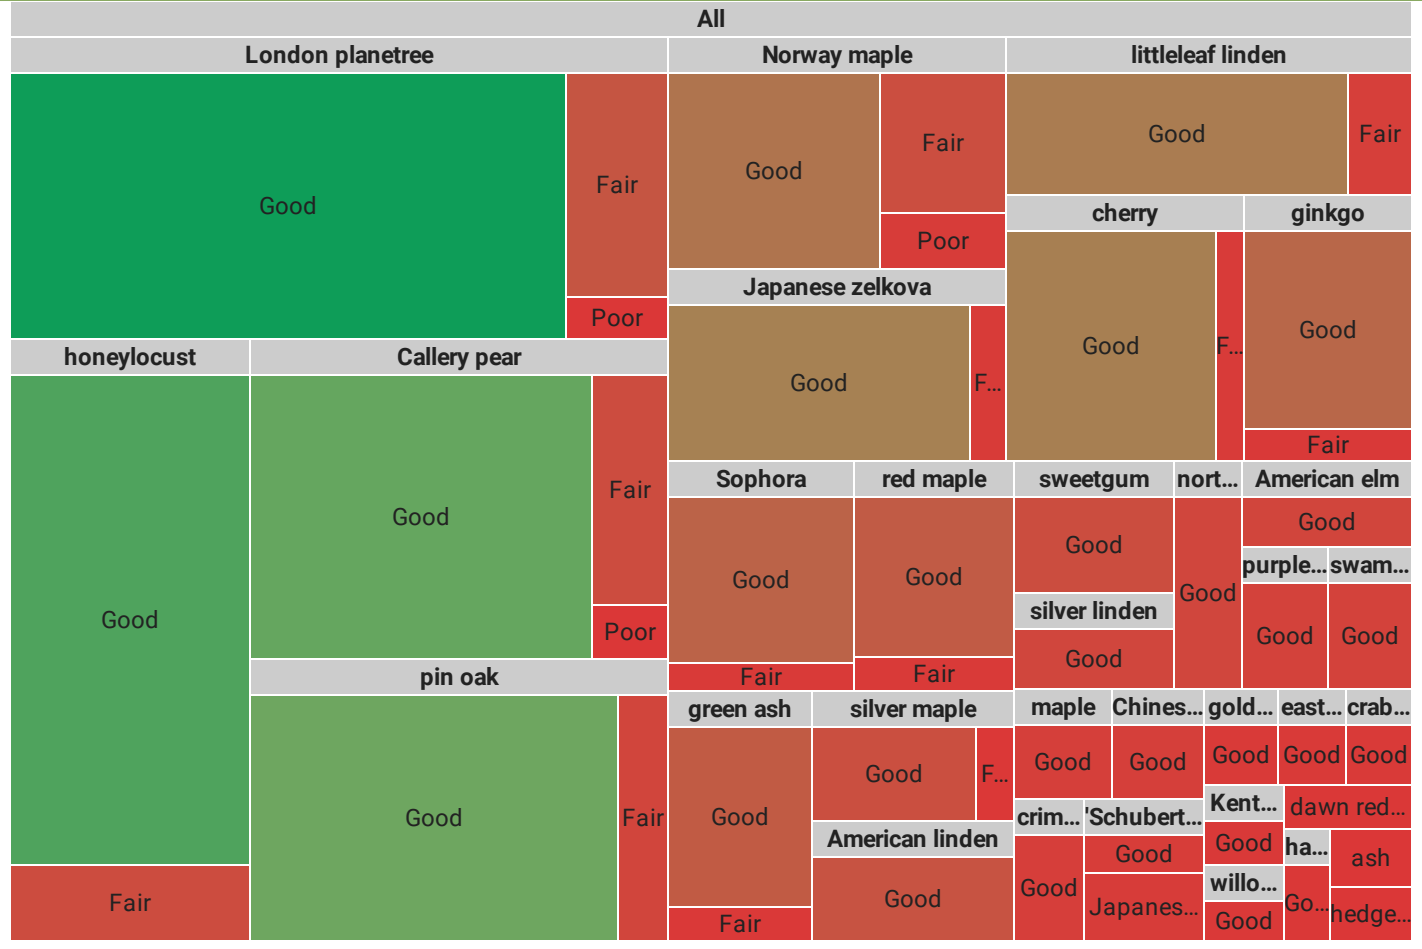

# NYC Tree Census 2015

	Borough	Total Number of Trees ▾
1.	Queens	237,973
2.	Brooklyn	169,744
3.	Staten Island	101,442
4.	Bronx	80,585
5.	Manhattan	62,427
	Grand total	652,171

The majority of trees grown, especially the ones in good health, are London Planetrees and Honeylocusts.

There are over 600+ different species of trees across NYC!

We see no significant difference in tree health between growing ON or OFF curb
